

TABLE OF CONTENTS/ TABLE DES MATIERES

<u>SESSION A</u>	OPENING/ OUVERTURE
A-1	Lake Eric Ice: Researcher' s Dream, Designer' s Nightmare. - D.M. Foulds
<u>SESSION B</u>	ICE INSTRUMENTATIONS AND OBSERVATIONS/ MESURES ET OBSERVATIONS DES GLACES
B-1	Hot-Wire and Conductivity Type Gauges for Determination of Thickness of Arctic Fresh Water Ice. - D.A. Sherstone, H. Gross, T. Prouse
B-2	Mapping River Ice Conditions Using Videographic Techniques. - S.F. Daly, K.L. Carey, L. Gatto, V.H. Anderson, R. Arend
B-3	Frazil Ice Recorder Tests. - J.S. Ford, N. Madsen
B-4	Programmation de campagnes d' auscultation sur les cours d' eau nordiques. - J.M. Tanguy, A.R. Tremblay
B-5	Evaluating Frazil Ice Accumulation in Rivers and Streams: A Casy Study. - A.M. Dean, Jr.
B-6	Aerial Photographic Interpretation of River Ice - T.L. Erb.
<u>SESSION C</u>	BREAKUP AND ICE JAMS/ DEBACLES ET EMBACLES
C-1	Initial Fracture Patterns of River Ice Cover. - S. Beltaos
C-2	Simulation d' un barrage suspendu sur la riviere Chaudiere en amont du barrage Sartigan. -J.M. Tanguy, A.R. Tremblay

- C-3 Calculations of Ice Jam Thickness Profiles.
- G. Flato, R. Gerard
- C-4 Study of Ice Breakup in the Meduxnekeag River, N.B. Using Hydrometric Station Records.
- P. Tang, B. Burrell, S. Beltaos, R. Lane
- C-5 Unconsolidated Floating Covers.
- S.P. Chee, M.R. Haggag

SESSION D

BREAKUP AND ICE JAMS AND ENVIRONMENTAL ASPECTS/ DEBACLES ET EMBACLES ET ASPECTS ENVIRONNEMENTAUX

- D-1 Ice Formation Processes on the St-Lawrence River Upstream of Cornwall.
- J. Ho
- D-2 Forecasting Ice Cover Progression at Salmon River, Idaho.
- J.E. Zufelt
- D-3 Management of River Ice Covers for Outdoor Activities.
- L. Jolicoeur, L.A. Gagnon
- D-4 River Ice and Salmonids.
- M. Walsh, D. Calkins

SESSION E

THERMAL REGIME; REGIME THERMIQUE

- E-1 The Response of Rippled Ice Surfaces to Variable Water Discharge.
- J.L. Wuebben
- E-2 Generation, evolution et fonte thermique des couverts lacustres.
- J.M. Tanguy, P. Shoiry, B. Michel
- E-3 Simulation mathématique d'un rejet thermique sous une couverture de glace.
- M. Megzhari, R. Kahawita, S. Sarraf

E-4 The Effect of Tributary Effluent on Ice Cover Progression.

- W. El-Salek, S. Sarraf, R. Kahawita

E-5 The Use of the Cannon Bubbler for Ice Management In Ice Covered Harbours.

- R. Aldelnour, M. Perchanok, R. Nishizaki

SESSION F

ICE CONTROL/ CONTROLE DES GLACES

F-1 Mesure de protection contre les inondations en presence des glaces sur la riviere du nord a Saint-Andre-Est.

- P. Larouche, J.M. Tanguy

F-2 Laboratory and Field Tests of a Wire Mesh Frazil Collector.

- E.P. Foltyn

F-3 Ice Management at Beauharnois.

- S. Robert, R. Brochu, A. Robitaille

F-4 Natural Regulation of the Great Lakes by Ice Jams: A Case Study.

- J.A. Dericki, F.H. Quinn

F-5 Preliminary Report on Field Study of Cooling and Frazil and Anchor Ice Formation in the Lachine Rapids.

- G. Tsang

SESSION G

ICE ASPECTS RELATED TO A HYDRO COMPLEX WITH AN UPSTREAM FREE SURFACE FLOW/ CONSIDERATIONS DES GLACES POUR UN AMENAGEMENT HYDROELECTRIQUE AVEC BIEF AMONT A SURFACE LIBRE

G-1 Nouvelle approche dans la conception d' un aménagement hydroelectrique fonctionnant avec bief amont a surface libre: historique, cheminement et validation.

- D. LeVan, B. Michel

G-2 Observation du regime des glaces du fleuve St-Laurent dans la zone du lac St-Louis et des rapides de Lachine.

- P. Desroches, B.C. Michel

- G-3 Thin Sheet ice Generation on Cold Water.
- F.E. Parkinson, R. Hausser
- G-4 Conditions naturelles des glaces a l' amont et a l' aval des rapides de Lachine.
- F. Fonseca, P. Desroches
- G-5 Problematique d' aménagement et criteres de conception du projet Archipel
- B. Michel, F. Fonseca, S. Petryk

SESSION H

- H-1 Modele mathematique Rhiver - application au lac Saint-Louis.
- J.P. Saucet, G.K. Holder
- H-2 Criteria and Laws of Formation and Growth of Various Ice Types in the St-Lawrence River, near Montreal.
- B. Michel, G. Rivard, F. Fonseca
- H-3 Modelisation physique des conditions de glace et conception des ouvrages du point de vue des glaces.
- J.P. Fau, S. Leclerc
- H-4 Management of Moving Ice.
- S. Petryk, R.J. Silver
